Full Range

SINCE 1983

Ideal Mix Concrete has been servicing the South Australian construction industry since 1983 and has evolved into what today is IMC, led by the second generation of the Obbiettivo family.

From humble beginning, we have since grown to service the local construction industry through our fleet of 24 trucks.

With our proven experience and expertise, we can provide the perfect mix solutions for small jobs or large-scale projects. Our team carefully designs and blends the appropriate concrete mixes, utilizing advanced mixing techniques to produce high-quality concrete products suitable for a diverse range of applications.

We only use the finest quality materials, and we are proud to offer exceptional service in Adelaide and South Australia.

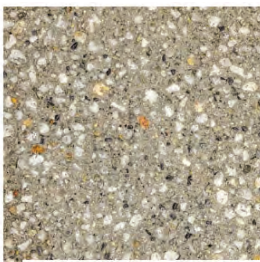

DêKOR

7/10MM. EXPOSED

COLOUR THRU

7/10MM. POLISHED

SEEDED

Our decorative range is a natural stone that not only makes a clear design statement but also provides the strength to withstand the harshest of Australia's seasons.

DêKor comprises 4 collections offering a wide variety of colours and finishing to suit any project.

The Exposed and the Polished range are available in both 7 and 10 mm.

As the materials used in the manufacture of Dêkor products are subject to natural variation of colour, texture, size and shape, some variation can occur from batch to batch.

"One of the best in SA and most reliable operators. When you can rely on your supplier, your job becomes easier. We trust IMC 100%"

CONCRETE NOW

"I can't recommend IMC enough, they have been very reliable and fair supplier of ours for many years."

Nothing is ever too hard when it comes to servicing our requirements."

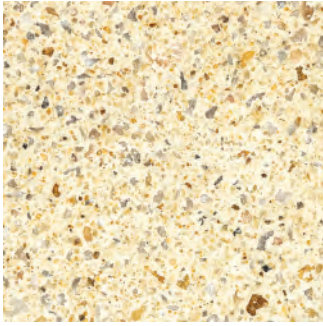

"Renato and his team are great to work with, great attention to details and great range of concrete mixes."

GDA CONCRETE

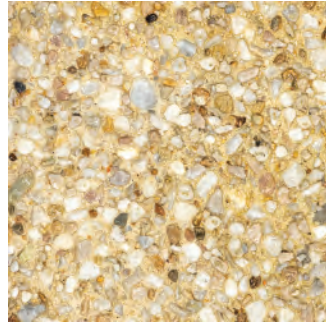

"Great people to do business with, fair prices, great quality and fantastic service."

We highly recommend them!"
